

## **Janet Burner**

### *Artist Statement*

Clay as Art is my goal and inspiration. The human figure, my life's experiences, and images from nature fascinate my imagination; smooth surfaces, texture, movement, and contrasts are often incorporated. I bring my 52 years of experience to every lump of clay; to shape from nothing, a piece which lives beyond myself with dignity and pride. My intention as a potter was & is a spiritual one, to be one with the earth. My love for drawing, painting & sculpture is present in my work. I will always love clay.
