

Anastassia Fulmer

Stassia's ceramic work is rooted in her background of ink illustration, printmaking, and ceramics. She pulls inspiration from nature and the local flora & fauna, illustrating by hand each of her pieces. Stassia received her Bachelors of Fine Art from The University of Michigan in Ann Arbor, MI in 2012, and after a decade of working in art retail and wholesale now works full time exploring different illustration techniques and how to apply them to ceramics in her home studio in Grass Lake, MI.
